EXPERIENCED FULL STACK DEVELOPER

I am a dedicated Fullstack Developer with a strong foundation in both frontend and backend technologies. I specialize in building robust, scalable web applications that deliver seamless user experiences. My expertise spans modern frameworks like React and Next.js for the frontend, and Node.js, Express, and NestJS for the backend. I excel at transforming complex requirements into functional, user-friendly solutions. My passion lies in crafting clean, efficient code and continuously learning new technologies to stay at the forefront of web development. Whether working on the client-side or server-side, I am committed to delivering high-quality, reliable software that meets both user and business needs.

KEY COMPETENCIES

- Database Management
- API Design and Integration
- Version Control with Git and GitHub
- Agile Development and Collaboration
- Continuous Learning and Adaptability
- Code Quality and Best Practices

- Proficiency in Fullstack Development
- Efficient Problem-Solving
- Scalable Architecture Design
- Strong Command of Modern Web Technologies

PROFESSIONAL EXPERIENCE

MERN stack developer | Pixel Technology   **March 2023 - April 2024**

As a MERN stack developer at Pixel Technology, I was responsible for designing, developing, and maintaining scalable web applications using MongoDB, Express.js, React.js, and Node.js. I played a crucial role in implementing efficient and responsive user interfaces, integrating backend APIs, and optimizing application performance

Full-stack web development | Mereb Technologies   **February 2021 - March 2023**

During my tenure at Mereb Technologies, I played a pivotal role in designing and developing highly efficient web applications that solved complex problems. Leveraging cutting-edge technologies such as TypeScript, Angular, React, JavaScript, Express, .NET, MongoDB, AWS, and Firebase, I contributed significantly to the team's success in delivering robust solutions.

Frontend Developer | Cnet software technology PLC   **April 2019 - June 2020**

I contributed as a key member of a collaborative team that successfully developed a delivery application for EatAddis. My primary responsibility centered around the development and ongoing maintenance of the frontend system and dashboard.

EDUCATION & CERTIFICATIONS

Bachelor of Information science
Majors: Fullstack developer
Addis Ababa University

machine learning and ai
udemy and coursera

mern course
Dot Ethiopia

EXTRACURRICULAR ACTIVITIES
